

## **Let's Enjoy the live streaming of MJ Audio Festival !**

**Live Broadcast July 16, 2023, 11:00 - 18:00 (with an interruption for a break)**

The 5th MJ Audio Festival, to be held on July 16, 2023, will offer audio sessions of both home-built and manufacturer-made audio equipment at five venues. The sound that can be heard at one of the venues will be streamed online in the highest possible sound quality. The streaming can be viewed with the browser of any Internet-connected "terminal" such as a PC, smartphone, tablet, or STB (set-top box). This section describes the equipment requirements, application and payment, and the actual listening process.

### **●Program**

MJ Audio Festival will be held at "Sompo Kaikan" and "Hotel Mystays Ochanomizu" in Akihabara, Tokyo. Three programs at Hotel Mystays Ochanomizu will be distributed.

#### **(1) DC Amplifier Listening Session by Akihiko Kaneta**

**11:00-13:00**

Mr. Kanata will present the latest results of his half-century of tireless research on DC amplifiers. This time, he plans to explore the possibilities of DS Audio's optical cartridges.

#### **(2) Mr. Masashi Yanagisawa's own amplifier**

**13:30-15:30**

Comparative listening of two tube power amplifiers made by Mr. Yanagisawa. The source will be jazz-centered analog, including monaural LPs and SP recordings.

#### **(3) Presentation of new works by Mr.Yasuo Iwamura, Mr.Susumu Soya, and Mr. Katsu Nagashima**

**16:00-18:00**

Three amplifiers builders who have been actively publishing articles on tube amplifiers production in "MJ Radio and Experiment" magazine will present their new works. We will carefully select the best works from among those published in the Corona period.

These programs have been popular annual events at the MJ Audio Festival, and each time the venue is packed to capacity.

As a new experiment, the 5th MJ Audio Festival will be streamed online in high quality sound with video (with re-transmission) using the latest transmission technology. This will allow those who are in rural areas, those who cannot attend the event, and those who attended the event but would like to check the sound again to enjoy the event on their own devices.

### ● **Live streaming (follow-up playback) and redistribution**

All of the following functions are available with a ticket (2,000 yen).

#### **(1) Live Broadcast**

On July 16, we will be broadcasting live in real time for 7 hours. Still images will be displayed during the equipment changeover time. You can watch from the middle of the video, and follow-up playback is also available (see separate section).

If watching 7 hours of live streaming is too much for you, please use the re-transmission service.

#### **(2) Follow-up playback**

The live streaming has a "follow-up playback" function. The follow-up playback function allows users to playback the live stream from the beginning at any time during the streaming time, even if they miss the start time of the live stream. Even after the live streaming ends, you can watch the follow-up playback until the end of the streaming.

This function is not available for re-distribution.

#### **(3) Re-distribution**

There will be no archive of this transmission, but two re-transmissions will be made at a later date.

The re-distribution will be timed like a TV rebroadcast, and "rewind," "fast forward," "pause and continue," and "recording" will not be available.

#### **Re-distribution day**

**10:00 – 17:00 30 July 2023**

**10:00 – 17:00 13 August 2023**

#### (4) Access to the MJ Audio Festival ticket purchase site

After completing the eContent registration, access the MJ Audio Festival ticket purchase site (link: <https://econtent.jp/store/mjaudiofes>).

The ticket purchase site can also be accessed via a link on the "MJ Radio and Experiment" homepage [link <http://www.seibundo-shinkosha.net/mj>].

## (5) Confirmation of Operation

Before purchasing a delivery ticket, check to see if your device can view the video properly. For example, if your smartphone or PC does not have sufficient specifications, if the OS is too old to be compatible, or if the line is unstable and you cannot view the video properly, you will need to take countermeasures. At the same time, it is also recommended to check the operation of the playback system, including the D/A converter.

Click the "Details/Purchase" button on the ticket purchase page, and the video player screen for testing [Image G] will appear.

Can you view the video and audio without interruption? If not, try changing the device.

## (6) Ticket purchase and payment

Once you have confirmed that you can actually watch the live broadcast, it is time to purchase a ticket. The price is 2,000 yen (tax included), and you can watch all the live and re-transmissions with one ticket (serial key) purchased here.

To the right of the operation check screen is an "Add to Cart" button. When clicked, the "Cart" [Image H] appears, indicating that one delivery ticket is to be purchased.

[ImageH]

The display indicates that there is one ticket in the cart. The purchase has not yet been completed at this point.

The bottom of the same page [Image I] shows the payment method.

[ImageI]

Choose whether to pay by credit card or bank transfer. (Only credit cards are accepted for international purchases.)

- Payment by credit card

Enter your card information in the "Payment Information" page [Image J] that appears when you choose to pay by card, and click "Purchase" to complete your purchase [Image K].

[Image J]

The screenshot shows a 'Payment Info' modal window. At the top, there is a close button (X) and the title 'Payment Info'. Below the title, there are logos for various payment methods: VISA, Mastercard, JCB, AMERICAN EXPRESS, Diners Club, and DISCOVER. The card details are as follows: Number: 1234 5678 9012 3456; Expiration: MM/YY; CVC: CVC; Name: TARO YAMADA. At the bottom, there is a blue 'Buy' button.

Page to enter card information

[ImageK]

The screenshot shows the 'My Page' (マイページ) interface. At the top, there are navigation links for 'サポート・ヘルプ', 'シリアルキー入力', and 'マイページ'. The main content area includes a 'マイページ' button, a user greeting for 'masamwatanabeさん' with a login timestamp, and sections for '郵送チケット履歴' (no history) and '注文履歴' (order history). The order history table shows a completed purchase for 2000 yen on 2023年5月24日13:49. Below the table, the '配信チケット' (distributed ticket) section displays a 'シリアルキー' (serial key) and a '2000円' (2000 yen) amount, with a button to 'シリアルキーを使う' (use serial key).

After payment is completed, the ticket purchase and the "Serial Key" are displayed on My Page.

## (7) Obtaining a ticket

This completes the ticket purchase procedure.

The ticket (serial key) for the performance you purchased will be displayed on "My Page", and you will receive the ticket from eContent by e-mail at the same time. The link to the distribution site is also included in the e-mail, so click on it to go to the distribution site [Image N].
